

UK recruitment to cancer studies per 1000 population

Number of UK cancer studies per 100k population

Recruitment to UK cancer studies

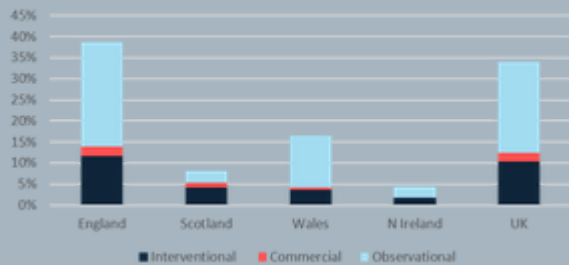

Clinical research activity data is collected for each of the UK nations as well as each region of Wales in a UK database called the NIHR Open Data Platform.

Data from this UK database has been collated to show the total recruitment for all cancer studies, and for specific cancer disease settings.

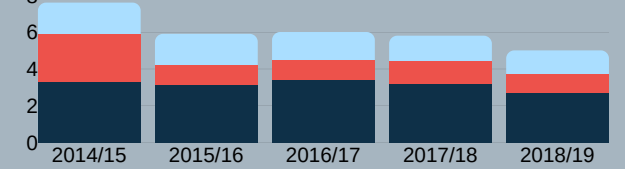

Percentage of new cancer diagnoses accessing research in the UK 2018/19

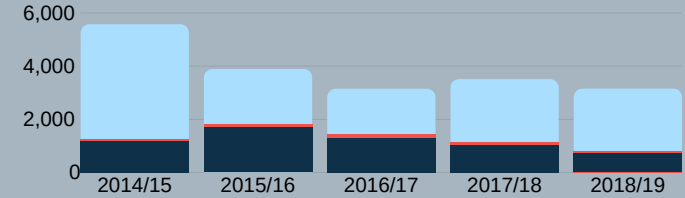

Percentage of new cancer diagnoses accessing research in the UK 2018/19

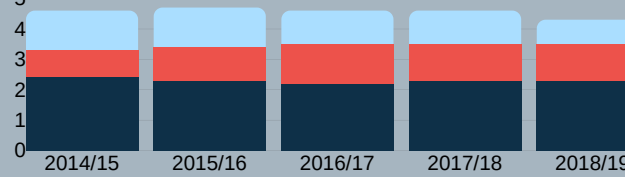

Number of cancer studies in Wales per 100k population

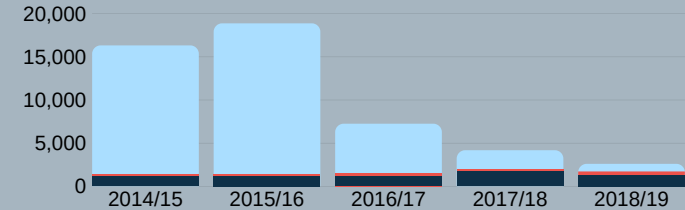

Recruitment to cancer studies in Wales

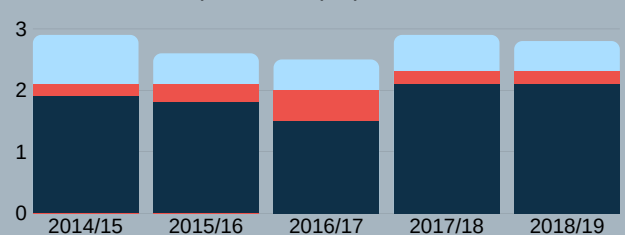

Number of cancer studies in Scotland per 100k population

Recruitment to cancer studies in Scotland

Number of cancer studies in Northern Ireland per 100k population

Recruitment to cancer studies in N Ireland
